SECTION 4: PARTNER IDENTIFICATION AND 1 YEAR SEXUAL ACTIVITY

(USE LIFE HISTORY CALENDAR "LHC")

Now I am going to be asking some questions about your sexual activity during the last 12 months. People mean different things by sex or sexual activity, but in answering these questions, we need everyone to use the same definition. Here, by "sex" or "sexual activity", we mean any mutually voluntary activity with another person that involves genital contact and sexual excitement or arousal, that is, feeling really turned on, even if intercourse or orgasm did not occur.

In answering these questions, please include all persons or times in the last 12 months where you had direct physical contact with the genitals (the sex organs) of someone else and sexual excitement or arousal occurred. Certain activities such as close dancing or kissing without genital contact should NOT be included. Also, this set of questions does NOT refer to occasions where force was used and activity was against someone's will.

PLYOMIT
1. Thinking back over the past 12 months, how many people, including men and women, have you had sexual activity with, even if only one time?

2. Since I will be asking some questions about (this/these) sexual partner(s), please tell me a first name or some other way to refer to (this person/each of these people).

(IF NECESSARY: You may refer to them in any way you want -- first name, initials, nicknames. I just need some way to refer to these partners so that when I ask you some follow-up questions we both know whom we are talking about).

(IF MORE THAN "9" PARTNERS IN Q. 1: Please begin with the person you consider to have been your most important or primary sexual partner during the last 12 months?)

Masturbation is a very common practice. In order to understand the full range of sexual behavior, we need to know the answers to a few questions about your experiences with masturbation. By masturbation, we mean self-sex or self-stimulation, that is, stimulating your genitals (sex organs) to the point of arousal, but not necessarily to orgasm or climax. The following questions are not about activity with a sexual partner, but about times when you were alone or when other people were not aware of what you were doing.

1. On average, in the past 12 months how often did you masturbate? CIRCLE ONE NUMBER ONLY.

   More than once a day .................. 01

   Usually ........................................ 2
   Sometimes ................................... 3
   Rarely .......................................... 4
   Never ......................................... 5
3. People masturbate for many reasons. Thinking about the past 12 months, please circle the number beside all the reasons why you usually masturbated. CIRCLE ALL THAT APPLY.

- because your partner did not want to have sex ..................... 6
- to get to sleep ..................................................................... 7
- because you are afraid of getting AIDS or another disease .... 8
